

Title: "Gathering Information Re Church-associated IA Ministries "

September 15, 2025

Greetings all,

As I thought more about my request for information regarding "robust" programs, I realized that what I really want is a list of **all** church-associated IA programs (IA ministries that are directly associated with/offered by a church).

This information will not be posted on the website or released to the general public. Rather, I will share this file with the pastors/ministry leaders in charge of IA ministries, so that they can find similar churches with similar ministries, with the goal of learning from each other. A ministry that is struggling with a certain aspect of what they are doing can learn from other ministries that are doing well with respect to this particular area, and ministries that are just getting started can especially learn from those with robust programs. Also, ministry leaders can just support each other.

So to pastoral staff/ministry leaders in charge of church-associated IA ministries: please fill in the information requested here <https://www.immanuelapproach.com/resources/immanuel-approach-community/> (or designate one of your team members to do so). Best guesses/estimates are fine. And again, this information will only be shared with the pastors/ministry leaders in charge of IA ministries at other churches.

Thank you for your help, and blessings to you and all that you do,

Dr. Lehman/Karl
