

Title: "Newsletter Archives Working Again"

April 27, 2026

Greetings all,

Some of you may have noticed that the Newsletter Archives section of the Resources page (<https://www.immanuelapproach.com/newsletters/>) has not been working correctly for the past several months. Thankfully, a website tech person volunteered some time to help us find and fix the problem, and this section of our website is now working again. And in case you haven't used this section before, the archives go all the way back to 2001 and currently contain more than 450 entries.

Were you wanting to tell a friend about the amazing ministry testimonies from Urbana 2022? Now you can find those stories again – just look through the newsletters from the end of 2022 and the beginning of 2023. Is there a newsletter from a couple of months ago that you wanted to look at again, but accidentally deleted? Just scroll back through the last dozen entries or so and you'll find it. Are you feeling discouraged regarding the huge pile of brokenness and darkness in the world? Scroll back through the archives and read the Immanuel-story entries until you can again feel the truth that Jesus' living presence is bigger than all of the brokenness and darkness.

Blessings,

Dr. Lehman/Karl
