

Title: "Jesus Is Always with Us – Just Like Radio Waves"

August 10, 2026

Greetings all,

Someone from the global Immanuel Approach community sent me a description of a fun session which presents a profound truth. Thought an excerpt would bless the rest of you. (Shared with permission.)

"After recalling the positive memory, I invited Jesus in. Usually when I invite Jesus in, he's just somehow there and I become aware of him. But this time it was like he was appearing in front of me. Like he had been standing there, but materialized when I invited him in. He told me that in fact he was always there at all times with us, but it was like radio waves. They're always there, but you have to tune-in to the right station to be able to hear the songs the radio waves are bringing. And if you're not tuned in to his presence, you will not know he's there or have the benefit that it brings you of knowing he's there."

Blessings,

Dr. Lehman/Karl
