Title: Immanuel Approach with YWAM in Tanzania

October 12, 2026

Greetings all,

Just got an email from someone providing Immanuel Approach sessions for all of the students as part of his teaching for the YWAM Discipleship Training School in Tanzania. Thought an excerpt would bless the rest of you. (Shared with permission.)

> “One student, after connecting with Jesus in the positive memory, went to a traumatic memory where his dad took him to the grave site of a dead baby with a witch doctor. The witch doctor took the umbilical cord of the dead baby and "blessed" (cursed) the recipient.
>
> The recipient then invited the Living Interactive Presence of Jesus (not actually easy to say in Swahili). At first two dark figures appeared. I let the vision play out and just asked what else he sees, senses, or hears. He reported that a man of white appeared. The man of white walked over to the 2 dark figures and just pushed them out of the vision. Then he walked over and picked up the umbilical cord and the dead baby and just walked away. The young man was delivered of 3 demons instantly, without even any prayers for deliverance, and his posture and whole countenance changed. (This was very, very different than traditional African deliverance).
>
> The next day in a prophetic blessing ministry time he was different than he had been all week, being bold to bless and encourage and pray for various other students and staff.”

Blessings,

Dr. Lehman/Karl
