Title: “The Immanuel Approach and Drug Rehab in Nigeria”

September 21, 2026

Greetings all,

Someone from the global Immanuel Approach community sent me a note about training she is doing for people in Nigeria. Thought this excerpt would bless the rest of you. (Shared with permission.)

> “Forgot to tell you about this one. My friends have been in touch with the director of a Christian drug rehabilitation center, and Monday and Tuesday of this week I taught for three to four hours each day on Immanuel Prayer….The director said he had been so excited after the training on Monday that he had not been able to fall asleep until 5 AM! He was thinking of all the possible ways that this could be used to bless people. He said we must get it out into the community.”

Blessings,

Dr. Lehman/Karl
